

I WISH I COULD

Emotions, words and lyrics by John Philipps ©.14 20.5.2018.5
Thank You Danielle

What if I could have told you more about me
What if I could have taken more care of you
What if I could reach you more day after day
What if from now on I could be more loving

I wish I could have been
I wish I could have been so much
I wish I could have been so much more
I wish I could tell you
I wish I could tell you so much
I wish I could tell you so much more

I wish I could have felt how much you love me
How could I listen to you more tenderly
How could I hear more of your melody
How could I feel you much more deeply

How could I feel
How could I feel more
How could I feel more of you
How could I touch
How could I touch you
How could I touch you closer

Too far from you for too long
Too harsh with you too often
Sorry, forgive me and thank you to be You

Which words could I find to tell you more about me
Which feelings could welcome more of you
Which star could I reach to give you more and more
Which other part of me could I share to meet you

Which music could I play for you here, now and then
Which love could I sing now, then and forever
Which part of your soul could I walk with hereafter
Which better side of me could I show you soon

I wish I could have told you
I wish I could have told you so much
I wish I could have told you so much more
I wish I can now tell you
I wish I can now tell you more
I wish I can now tell you so much more
I love you
